

3M Scotch® 8896 Strapping Tape

Category : Polymer , Adhesive

Material Notes:

Scotch® Strapping Tape 8896 is a high-performance clean-removal tape with a tensilized polypropylene film backing and pressure-sensitive adhesive. The tape is designed to secure appliance parts and electronic components in place during manufacture and shipment. The backing provides proper stiffness for manual or semi-automatic dispensing of short to long lengths of tape. The pressure-sensitive adhesive is specifically formulated to provide balanced adhesion, clean removal, and stain resistance on surfaces such as painted metals, plastic, and glass. It is recommended that appropriate tests be conducted on the specific surfaces the tape will be adhered to in order to determine the strapping tape's suitability for the intended application. Physical Properties	Metric	English	Comments
Thickness	117 microns	4.60 mil	ASTM D3652

Mechanical Properties	Metric	English	Comments
Tensile Strength at Break	23.3 MPa	3380 psi	ASTM D3759
Elongation at Break	32 %	32 %	ASTM D3759
Peel Strength	0.7669 kN/m	4.375 pli	Adhesion to Steel; ASTM D3330

Descriptive Properties	Value	Comments
Adhesive Type	High performance pressure-sensitive rubber resin	
Appearance	Blue, ivory
