

Abatron ClearStrip™ Stripper for Paint, Varnish, Coatings; Gel

Category : Fluid , Solvent

Material Notes:

ClearStrip™ is a high-performance gel designed to remove multiple coats of paint safely. It wets the paint surface for a long time, which allows the paint loosening process to continue for longer than comparable products. ClearStrip™ is non-caustic, contains no harsh solvents and has a very low odor. It is also environmentally friendly, non-flammable, biodegradable, and easily cleaned-up with water. The paint is absorbed into the remover for easy disposal. ClearStrip™ will remove most kinds of paint, varnish, and other coatings such as standard epoxy and polyurethane from wood, concrete, masonry, brick, plaster, metal, stone, and fiberglass. As a gel, it clings to vertical surfaces. It is recommended for both interior and exterior application. Its special characteristics make it well-suited for enclosed areas such as hospitals, offices, and residences. Its non-caustic characteristics also comment ClearStrip™ for use on fine wood.
