

BCC Products BC 4544 Polyester Carvable Wood Filler

Category : Polymer , Thermoset , Polyester, TS

Material Notes:

This polyester resin base compound is easy to use, sets in minutes and can be sanded or carved almost immediately. Acts like wood yet exhibits no grain problems. BC4544 Wood Filler can be carved, sanded, filed, scraped, drilled, tapped or machined to a featheredge. No paint preparation is required and even accepts stain better than wood. APPLICATIONS: Tooling: A must for the wood tooling, model and pattern industry, making revisions, engineering changes and rebuilding of wood pattern and master models. Marine: Ideal for patching holes in hulls and bulkheads. An excellent water resistance item for emergency repairs for all types of wood and fiberglass boats. Furniture: For the restoration of all types of wood furniture and antiques. Seals and fills in holes, gouges and cracks. Great for the furniture refinisher. Other Applications: A unique lightweight filler paste designed for working with model craft and other wood products in any scale or form. Information provided by BCC Products, Inc.
