

Chesterton 365 Rust Free Rinse

Category : Fluid

Material Notes:

Description: Chesterton® 365 Rust Free Rinse is an aqueous rinse tank additive designed to be used following production at 90% humidity. Flash rusting of ferrous metals will be eliminated during work-in-process delays and plant shutdowns. 365 Rust Free Rinse is compatible with all aqueous degreasers although for best results parts should be rinsed prior to immersion in the product. Features: Aqueous immersion rinse to passivate and protect ferrous metals Final stage in aqueous degreasing process Provides 30+ days protection @ 90% humidity (indoors) Completely water soluble Compatible with all aqueous degreasers Can be post-coated Nontoxic Nonflammable Biodegradable Information provided by Chesterton
