

DuPont Conpol™ 10AF Ethylene-Methacrylic Acid Additive Resin

Category : Polymer , Thermoplastic , Ethylene Methyl Acrylate , Ethylene-Methyl Acrylate Copolymer, Compounding Grade

Material Notes:

Conpol™ additive resins, supplied in pellet form, are designed to modify the surface properties of films or coatings of Surlyn® ionomer resins and Nucrel® acid copolymer resins. They are concentrated masterbatch products and should not be used by themselves in extrusion equipment, but blended with the resin to be modified. Conpol™ products are made from ethylene-methacrylic acid carrier resins to maximize compatibility with Surlyn® and Nucrel® resins. Information provided by DuPont Packaging Polymers.
