

## Henkel Alodine 1000L (Liquid) Conversion Coating

Category : Fluid , Solvent

**Material Notes:**

Alodine 1000L is a liquid chemical used to produce a protective coating on aluminum and aluminum alloys. The coating provides protection for aluminum and an excellent bond for organic coatings. Alodine 1000L develops a clear or colorless protective coating, and it should be used when the characteristic aluminum appearance or finish must be retained. Alodine 1000L is approved for use under Boeing Specification BAC 5719 for Class B.
