

Lord Adhesives Chemglaze® 9974 Roller Additive

Category : Other Engineering Material , Additive/Filler for Polymer

Material Notes:

Chemglaze® thinners are formulated with urethane grade solvents and are used to reduce viscosity, aid bubble release, minimize orange peel, and make application easier. Chemglaze 9974 additive is used for bubble release when using a roller in some Chemglaze Z-Line and V-Line coatings. An additive for use with Chemglaze Z-Line and V-Line coatings to permit roller application. Aids bubble release, minimizes air entrapment, reduces pigment bonding and improves surface wetting and flow. Suggested use per gallon of Chemglaze is 0.5 - 1.0 fluid ounce for clear, and 1.5 - 2.0 fluid ounces for pigmented. Stir or shake well before use. All information provided by Lord.
