

Michelman® CleanGrip® 111 Alumina based, nonskid coating

Category : Ceramic , Oxide , Aluminum Oxide , Fluid

Material Notes:

Description: Water based frictionizing agent Usage: CleanGrip® 111 is an alumina based, nonskid coating designed to reduce the slipperiness of shipping containers by providing excellent slide angles. CleanGrip® 111 has a low pH that does not resolubilize ink and can prevent ink smearing. This product is gluable with both hot melt and cold set glues. Application data: CleanGrip® 111 is designed to be applied by spray coater or roll coater Frequently applied at the paper mill, typical uses include: Corrugated packaging for non-perishables; Folding cartons and Multi-wall bags Food Contact Information when manufactured in the USA: FDA: 176.170: Components of paper and paperboard in contact with aqueous and fatty foods. (Restricted) 176.180: Components of paper and paperboard in contact with dry foods. (Restricted) Information provided by Michelman®
