

Michelman® Nomar® 70AFN Non-abrasive paper coating

Category : Fluid , Other Engineering Material , Additive/Filler for Polymer

Material Notes:

Description: Non-abrasive paper coating **Usage:** Nomar® 70AFN is a water based, gluable, non-abrasive coating generally used to provide abrasion protection for gas flushed food packaging or small appliances. It is typically applied to the inner package or to shippers and partitions. It contains no fluorocarbon or PFOA. Nomar® 70AFN is gluable with both cold set and hot melt glues. **Application Data:** Nomar® 70AFN can be applied by either rod or blade coater at the wet end of the corrugator and by blade at the dry end. Nomar® is typically used on: Snack food packages to prevent pinholing; Packaging for automotive parts such as headlight lenses and plastic body parts to prevent scratching; Partitions inside boxes so that more items can be packed into each box without risk of abrasion; and Cornerposts used in appliances boxes to reduce surface contact between the appliance and the box **Food Contact Information** when manufactured in the USA: FDA: 176.170: Components of paper and paperboard in contact with aqueous and fatty foods. (Restricted) 176.180: Components of paper and paperboard in contact with dry foods. Information provided by Michelman®
