

## Mid-Mountain Materials HYTEX® 1400 Fiberglass Industrial Textile

Category : Ceramic , Glass , Glass Fiber , Other Engineering Material , Composite Fibers

### Material Notes:

Description: Hytex® is the trademark for the textile products manufactured by Mid-Mountain Materials, Inc. Hytex high performance textile products are manufactured from various yarns of varying chemistry and in differing configurations (cloth, tape, sleeving, rope etc.). Mid-Mountain can design hybrid materials by blending most any combination of yarns. HYTEX® 1400 textile products are produced from low-alkali fiberglass yam for use at temperatures where E-glass products would ordinarily fail. Strength is exceptional, weight is low, and dimensional stability excellent. Hytex® 1400 textiles are especially suited for use where high abrasion or temperatures between 1000°F and 540°C and 1400°F and 760°C are encountered. Information provided by Mid-Mountain Materials.

Thermal Properties	Metric	English	Comments
Melting Point	1480 °C	2700 °F	
Maximum Service Temperature, Air	760 °C	1400 °F	Continuous
	1090 °C	2000 °F	Short Term

Descriptive Properties	Value	Comments
Abrasion Resistance	Very Good	
Acid Resistance	Good	
Alkali Resistance	Good	
Color	White	
Composition	S-2 Glass	
Solvent Resistance	Excellent	
Sunlight & Aging Resistance	Excellent
