

Nitriflex Nitriimpact 1300 MBS Modifier

Category : Other Engineering Material , Additive/Filler for Polymer , Polymer , Thermoplastic , Styrene-Butadiene

Material Notes:

NITRIMPACT™ 1300 thermoplastic resin is a methyl methacrylate-butadiene-styrene (MBS) impact modifier for transparent and opaque PVC applications. Applications: Transparent PVC Compounds (no use restriction for translucents and opaques compounds). Used for blow moulding, extrusion, calandering, thermoforming and injection processes, for the production of artifacts like: transparent profiles, laminates in general, blister packs, tubes, hoses, automotive parts, etc. Information provided by Dax Resinas
