

Oceanchem Group ANTIOXIDANT SK-225

Category : Other Engineering Material , Additive/Filler for Polymer

Material Notes:

Cas No.: 6683-19-8 Properties: Antioxidant SK-225 is a kind of compound components, including antioxidant SK-1010 and antioxidant SK-168. Soluble in benzene, hexane, ethyl acetate, insoluble in water. Uses: Antioxidant SK-225, with good synergistic of antioxidant SK-1010 and SK-168, can retard heated degradation and oxidative degradation of polymeric substances during processing and in end applications. It can be widely used for PE, PP, PC, ABS resin and other petro-products. The amount to be used may be 0.1-0.8%. Package and Storage: Packed with plastic bag in composite plastic woven sack, net 25 kg/bag. Store in a cool area designed for the storage of chemicals. Period of Validity: Normally 6 months. Information Provided by Oceanchem Group
