

## Oceanchem Group ANTIOXIDANT SK-900

Category : Other Engineering Material , Additive/Filler for Polymer

**Material Notes:**

Cas No.: 2082-79-3 Properties: Antioxidant SK-900 is a kind of compound components, including antioxidant SK-168 and antioxidant SK-1076. Soluble in benzene, hexane, ethyl acetate, insoluble in water. Uses: Antioxidant SK-900, with good synergistic of antioxidant SK-168 and SK-1076, can retard heated degradation and oxidative degradation of polymeric substances during processing and in end applications. It can be widely used for PE, PP, nylon, PC, ABS resin and other petro-products. The amount to be used may be 0.1-0.8%. Package and Storage: Packed with plastic bag in composite plastic woven sack, Net 25kg/bag. Sote in a cool area designed for the storage of chemicals. Period of Validity: Normally 6 months. Information Provided by Oceanchem Group
