

PolyChem Alloy PolyPurge N

Category : Polymer , Thermoplastic , Purging Compound

Material Notes:

PolyPurg products are purging compounds designed for cleaning of extruders and continuous mixers where rigorous cleaning is required. PolyPurg will remove organic and inorganic pigments, including carbon black and phthalo colors. All raw materials comply with US FDA regulations. PolyPurg purging compounds are available for polyolefin resin systems, as well as engineering thermoplastics. A properly cleaned extruded prior to shut down and restart will reduce scrap and waste from cross contamination, and will protect the barrel and shaft from corrosion and machine wear. PolyPurg is available as a uniform pellet shape.
