

## Polystrand ThermoPro™ IE7011X ECR X-Ply Cross-Ply Polypropylene-Glass Composite

Category: Polymer, Tape, Thermoplastic, Polypropylene (PP)

## **Material Notes:**

2-Ply with Fiber Orientation at 0° & 90°.Polystrand ThermoPro™ combines continuous E-Glass (ThermoPro-E™) structural reinforcing fibers in either a polyethylene or polypropylene proprietary thermoplastic polymer to form ribbons or tapes. These material forms can be subsequently molded by high temperature processing to create end-use applications including pipe, tanks, liners, automotive, architectural, and a host of other structural industrial and commercial products. Polystrand ThermoPro™ is the result of a quest of more than 15-years to develop structural thermoplastic composites for the international industrial and commercial markets.Information provided by Polystrand.
