

Potters Industries Conduct-O-Fil® S3000-S Silver-Coated Solid Glass Spheres

Category : Ceramic , Glass , Other Engineering Material , Additive/Filler for Polymer

Material Notes:

Conduct-O-Fil® Conductive Particles are engineered to meet a broad range of conductive and electro magnetic interference requirements. Applications include EMI shielding, conductive adhesives, Z-axis conductive films. Features good conductivity, low density compared to metal filler, spherical shape gives good flow in injection molding, light color. Information provided by Potters Industries.
