

Potters Industries Conduct-O-Fil® SC04P10 Silver-coated Sub-10 micron Particles

Category : Ceramic , Glass , Other Engineering Material , Additive/Filler for Polymer

Material Notes:

Applications include conductive inks, conductive adhesives, partial replacement of pure silver powder. Features good conductivity, possible blends/ replacement of 100% pure silver, silver/glass has one third the density of pure silver, narrow particle size distribution. Information provided by Potters Industries.
