

Pyrotek REDLINE MULTIKOTE Water-Based Coating

Category : Ceramic

Material Notes:

A water-based coating designed to prevent molten metal adhesion to both refractory and most metallic surfaces. Multikote's bonding system enables it to be applied in a variety of applications including both hand and automatic ladles, thermocouple tubes, sow molds, troughs, casting tables, most boards, flooring, and other surfaces which require a protective coating. Stainless steel requires wire brush or acid prep. Information provided by Pyrotek.
