

Saint-Gobain Normount® V1300 White Polyurethane Foam Bonding Tape for Interior Use

Category : Polymer , Adhesive , Tape

Material Notes:

Description: Normount® V1300 series bonding tapes combine a polyurethane foam substrate with a durable, pressure-sensitive acrylic adhesive on both sides. The foam properties dissipate vibrations and distribute stress forces, while the adhesive maintains a long-term bond. The conformability of Normount V1300 series mounting tapes promotes maximum surface contact with less distortion, thus providing superior adhesive wet-out and bond.

Features/Benefits: Acrylic adhesive provides durable bond Promotes maximum surface contact and adhesive "wet-out" Absorbs vibration Mitigates effects of temperature-induced expansion and contraction Helps prevent corrosion by eliminating contact between dissimilar materials

Typical Bonding Applications: Retail packaging, circuit board mounts, signs, security pads, component mounts, wire/cable mounts, appliance emblems, mirror mounting, wall displays, interior trim and ornamentation, tiles and panels, kick panels, panel stiffener attachment, glass lamination. All data based on a 0.03 inch test sample. (Available in multiple thicknesses.) Information provided by Saint Gobain Performance Products.

Physical Properties	Metric	English	Comments
Density	0.443 g/cc	0.0160 lb/in ³	ASTM D1667

Mechanical Properties	Metric	English	Comments
Tensile Strength, Yield	1.17 MPa	170 psi	ASTM D-412 (Die C)
Elongation at Break	215 %	215 %	ASTM D-412 (Die C)

Thermal Properties	Metric	English	Comments
Maximum Service Temperature, Air	93.3 Â°C	200 Â°F	
Minimum Service Temperature, Air	-34.4 Â°C	-30.0 Â°F	

Descriptive Properties	Value	Comments
Color	White
