

Shandong Dongyue Shenzhou New Material Co Fluorocarbon Solvent

Category : Other Engineering Material

Material Notes:

Conformable with: Q/DYS 012-2007 Fluorocarbon solvent is a mixture of perfluorocarbon circular ether. It is a colorless transparent liquid, odorless, nontoxic and unflammable. It is insoluble in water, but soluble in organic solvent such as alcohol, ether and acetone. It can carry oxygen efficiently and has excellent electrical property such as high resistance and low power, and widely being used in chemical, electrical and medical industry. Main Applications: It is used as cooling medium of various electrical equipment and insulated fluid, isolation liquid, lubricant, depurative and chemical reaction medium.
