

Silberline EternaBrite® Premier 351

Category : Other Engineering Material , Additive/Filler for Polymer

Material Notes:

EternaBrite® Premier 351 is a fine, very bright, lenticular leafing aluminum pigment with excellent opacity and distinctness of image (D.O.I) for solvent based general industrial coatings. This grade has a highly controlled, narrow particle size range and is the finest and brightest leafing aluminum pigment offered. This product is not recommended for use with chromatic pigments, as the leafing effect will mask the colorant effect. Applications: General Industrial; Trade & Maintenance
