

Solvay MACKADETÂ® DR-100M Surfactant

Category : Fluid

Material Notes:

Product Description: MackadetÂ® DR-100M is a concentrated blend of surfactants, which simply requires dilution and the addition of minor additives to produce a ready to package high foaming product. To achieve optimal results, conditioning agents and fragrance should be added to this base just prior to dilution. The viscosity may be adjusted to desired consistency with sodium chloride (to increase) or sodium xylene sulfonate (to decrease). Mackadet DR-100M contains no diethanolamides and low VOC and is preserved with DMDM Hydantoin. Uses: Shampoos, Hand Soap, Body Wash and Dish Soap. Information provided by Rhodia, Rhodia has been acquired by Solvay.
