

Solvay MACKAM® 2C LVA Surfactant

Category : Fluid , Other Engineering Material , Additive/Filler for Polymer

Material Notes:

Product Description: Mackam 2C-LVA is a mild amphoteric foaming and cleansing agent that can reduce the overall irritation of cleansing products into which it is formulated. It is often used as a detoxifying agent in baby shampoos. This material is compatible with anionic, non-ionic and most cationic systems. Mackam 2C-LVA aids in flash foaming and improves the foam stability of most formulations. This particular grade exhibits a significantly lower viscosity than others, making it very easy to empty containers and pump.
