

Solvay MACKAMÂ® LDP Surfactant

Category : Fluid , Other Engineering Material , Additive/Filler for Polymer

Material Notes:

Product Description: Mackam LDP is a specially formulated blend of amphoteric and nonionic surfactants that is ideal for use in hard surface cleaners. Mackam LDP is suggested for systems where sodium chloride would be detrimental to the performance of the final product or would cause corrosion problems. Mackam LDP is stable over a broad pH range and is used both as a detergent and hydrotrope in high electrolyte systems. It helps wetting and solubilization in systems containing phosphate and polyphosphates. **Uses:** All Purpose Cleaners, Steam Cleaners, White Wall Tire Cleaners, Oven Cleaners and Hard Surface Cleaners. Information provided by Rhodia, Rhodia has been acquired by Solvay.
