

Solvay RHODAPON® TL-40/A Surfactant

Category : Fluid

Material Notes:

Description: Rhodapon® TL-40/A is formaldehyde preserved clear light liquid with excellent foaming characteristics. It is a milder Lauryl sulfate grade and it has enhanced compatibility with fragrances and electrolytes. **Chemical Name:** FATTY ALCOHOL SULFATE **CAS:** 117875-77-1 **Available in:** Asia Pacific, Europe, Latin America and North America **Applications:** RHODAPON TL-40/A is a versatile toiletry raw material which combines optimum performance with excellent foaming characteristics. The viscosity of these derived formulations can be adjusted by the addition of inorganic salts. The mildness of a product formulated with RHODAPON TL-40/A may be improved by the inclusion of cocoamphoacetates. Used in many personal care applications such as shampoos, hair color treatments, liquid soaps, creams and lotions, and related cosmetic products **Information provided by Rhodia, Rhodia has been acquired by Solvay.**
