

Solvay Specialty Polymers Tecnoflon® FOR 532 Fluoroelastomer

Category : Polymer , Thermoset , Fluoropolymer, TS , Thermoset Fluoroelastomer , Rubber or Thermoset Elastomer (TSE)

Material Notes:

TECNOFLON® FOR 532 is a medium viscosity cure incorporated fluoroelastomer copolymer. This grade is well suited for applications where excellent compression set and superior mold release, are required. It can be compounded to meet MIL-R83428B and other major fluoroelastomer specifications. Features: Copolymer; Fast Cure; Good Flow; Good Mold Release; Low Compression Set; Medium Viscosity Uses: Belts/Belt Repair; Blending; Gaskets; Hose; Profiles; Seals; Sheet Additional Properties: Fluorine Content - 66 % Information provided by Solvay Specialty Polymers.

Physical Properties	Metric	English	Comments
Mooney Viscosity	45 @Temperature 121 Â°C	45 @Temperature 250 Â°F	ML 1+10; ASTMD1646

Descriptive Properties	Value	Comments
Availability	Europe; North America	
Color	Off-White	
Form	Slab	
Processing Technique	Calendering; Compounding; Compression Molding	
	Extrusion; Resin Transfer Molding
