

Struktol VP 3742 S Flame retarded epoxy resin

Category : Other Engineering Material , Additive/Filler for Polymer , Polymer , Thermoset , Epoxy

Material Notes:

Applications: STRUKTOL VP 3742 is a polyfunctional epoxy resin which contains a chemically bound organo-phosphorous substance. Thus the mechanical properties like stability and modulus as well as chemical resistance are not influenced negatively as it occurs when using additives or filling agents. Information provided by Struktol

| Physical Properties | Metric | English | Comments |
|---------------------|--------|---------|----------|
| Solids Content | 80 % | 80 % | |

| Electrical Properties | Metric | English | Comments |
|----------------------------|----------|----------|----------|
| High Amp Arc Ignition, HAI | 4.0 arcs | 4.0 arcs | |

| Processing Properties | Metric | English | Comments |
|-----------------------|---------------|---------------|---|
| Shelf Life | >= 12.0 Month | >= 12.0 Month | in original sealed containers at temperatures less than 40Â°C |

| Descriptive Properties | Value | Comments |
|--------------------------------|-----------------|----------|
| Appearance | Yellowish resin | |
| Epoxy Equivalent Weight (g/Eq) | 370 | |
