

Universal Wire Works ER321 Stainless Steel Bare Wire

Category : Metal , Ferrous Metal , Stainless Steel

Material Notes:

The titanium added to the alloy composition acts in the same way as columbium in ER347 in reducing intergranular carbide precipitation and thus increasing resistance to intergranular corrosion. This alloy is used for welding alloys of similar composition, using an inert gas shielded process. Information provided by Universal Wire Works for their line of welding wire and filler metal.
