

A. Schulman POLYBLAK™ 4642 Premium Black Color Concentrate, 40% Carbon Black Based In LLDPE

Category : Other Engineering Material , Additive/Filler for Polymer , Polymer , Thermoplastic , Polyethylene (PE) , LLDPE

Material Notes:

DescriptionPOLYBLAK® Black 4642 is a premium black color concentrate containing 40% carbon based in LLDPE. This carbon black masterbatch is designed to provide smooth extruded surfaces and exceptionally long screen pack life. POLYBLAK® Black 4642 is formulated for use in durable high density polyethylene applications such as pipe and geomembranes. POLYBLAK® 4642 is typically recommended for use at addition levels between 5.0 and 6.25%.Information provided by A. Schulman.
