

Assab Steels HOTVAR Hot Work Steel

Category : Metal , Ferrous Metal , Tool Steel , Hot Work Steel

Material Notes:

HOTVAR is a high performance molybdenum-vanadium alloyed hot-work tool steel which is characterized by: High hot wear resistance Very good high temperature properties High resistance to thermal fatigue Very good temper resistance Very good thermal conductivity Applications: Warm forging, dies and punches Roll forging, rolling segments Rock orbital forging, punches and dies Upset forging, clamping tools Progressive forging, dies Axial closed die rolling, top and bottom dies Cross forming, segments Hot bending, tools Hot calibration, tools Zinc die casting, dies Al-tube extrusion
