

ExxonMobil Coolant/Antifreeze Mobil Heavy Duty 50/50 Prediluted

Category : Fluid

Material Notes:

Mobil Heavy Duty 50/50 Prediluted Coolant/Antifreeze is a diesel specific coolant, formulated to provide exceptional engine protection for all heavy-duty cooling systems. Mobil Heavy Duty 50/50 Prediluted Coolant/Antifreeze is a 50/50 mix of Mobil Heavy Duty fully formulated coolant and deionized water. Since Mobil Heavy Duty is pre-charged with a high quality SCA and premixed with deionized water, the addition of SCA's and water when topping off is not needed to compensate for SCA dilution. Mobil Heavy Duty 50/50 Prediluted Coolant/Antifreeze is a low total dissolved solids, low silicate coolant that incorporates nitrite to provide superior wet sleeve liner cavitation corrosion protection. Additional advantages include it's phosphate free formula and state of the art inhibitor package that reduce the risk of scale and inhibitor drop-out.
