

ExxonMobil Vistalon™ 404 Ethylene Propylene Copolymer Rubber

Category : Polymer , Thermoset , Rubber or Thermoset Elastomer (TSE)

Material Notes:

Product Description: Vistalon 404 rubber is a low Mooney, low ethylene copolymer with a broad molecular weight distribution. It is applicable for use in formulations for molded and mechanical goods. This product is sold in dense bales. **Key Features:** Easy processing and mixing. Information provided by ExxonMobil Chemical.
