

## KKPC KOSYN KSL 601 Styrene-Butadiene Latex

Category : Polymer , Thermoset , Rubber or Thermoset Elastomer (TSE)

### Material Notes:

Styrene-Butadiene Latex Characteristics: High adhesive strength, excellent printing aptitude, excellent adhesive degree, heat resistance, good dispersion, foam stability, aging resistance, good abrasion resistance, chemical resistance, excellent shock resistance, excellent dispersibility and runnability. Applications: Substitution for Natural Latex This product is so sensitive to sunlight and humidity that it can be tarnished and caused deterioration of quality if exposed. It is recommended to store it in cool and shady area lest it should be exposed to direct sunlight. Do not expose to incompatible materials or contaminants. Data provided by Korea Kumho Petrochemical Co., Ltd.
