

Lucite International Colacryl ® P2601 Specialty Polystyrene Resin

Category : Polymer , Thermoplastic , Polystyrene (PS)

Material Notes:

Cross-linked polystyrene resins have much higher thermal stability than conventional thermoplastic acrylic resins. Colacryl® P2601 is stable up to around 300°C. Suggested Uses: This product is usually used as a filler for investment casting waxes. The product may also be used as a texturing agent for surface coatings for use in flammable atmospheres.
