| Physical Properties | Metric       | English      | Comments |
|---------------------|--------------|--------------|----------|
| Molecular Weight    | 400.14 g/mol | 400.14 g/mol |          |

| Descriptive Properties | Value                  | Comments |
|------------------------|------------------------|----------|
| Assay                  | 13% Cr                 |          |
| CAS Number             | 7789-02-8              |          |
| Form                   | Violet crystals        |          |
| Purity                 | 99.999%                |          |
| Typical Impurities     | Fe = 5; Al, Na = 3 ppm |          |
