| Physical Properties | Metric      | English     | Comments |
|---------------------|-------------|-------------|----------|
| Molecular Weight    | 252.1 g/mol | 252.1 g/mol |          |

| Descriptive Properties | Value                      | Comments |
|------------------------|----------------------------|----------|
| Assay                  | 41% Cr                     |          |
| CAS Number             | 7789-09-5                  |          |
| Form                   | orange crystals            |          |
| Purity                 | 99.999%                    |          |
| Typical Impurities     | Na = 7; Ca = 2; Fe < 1 ppm |          |
