| Physical Properties | Metric       | English      | Comments |
|---------------------|--------------|--------------|----------|
| Molecular Weight    | 371.37 g/mol | 371.37 g/mol |          |

| Descriptive Properties | Value                                   | Comments |
|------------------------|-----------------------------------------|----------|
| Assay                  | 36% La                                  |          |
| CAS Number             | 20211-76-1                              |          |
| Form                   | White crystals                          |          |
| Purity                 | 99.999%                                 |          |
| Typical Impurities     | Rare Earths < 10 ND; Na, Fe, Mg < 1 ppm |          |
