| Physical Properties | Metric       | English      | Comments |
|---------------------|--------------|--------------|----------|
| Molecular Weight    | 260.27 g/mol | 260.27 g/mol |          |

| Descriptive Properties | Value                                | Comments |
|------------------------|--------------------------------------|----------|
| Assay                  | 37% Mo                               |          |
| CAS Number             | 15060-55-6                           |          |
| Form                   | Brown iridescent powder              |          |
| Purity                 | 99.995%                              |          |
| Typical Impurities     | W = 50 ND; Ca, Fe, K, Mg, Na < 1 ppm |          |
