| Physical Properties | Metric       | English      | Comments |
|---------------------|--------------|--------------|----------|
| Molecular Weight    | 253.81 g/mol | 253.81 g/mol |          |

| Descriptive Properties | Value                                 | Comments |
|------------------------|---------------------------------------|----------|
| Assay                  | 81% Rh                                |          |
| CAS Number             | 12036-35-0                            |          |
| Form                   | Black powder                          |          |
| Purity                 | 99.98%                                |          |
| Typical Impurities     | Fe, Ca < 50; Si < 20; Ir, Pt < 10 ppm |          |
