

Parker Chomerics Duralan™ G Glass Unshielded Window

Category : Ceramic , Glass , Optical

Material Notes:

Description: Parker Chomerics glass windows are designed to offer substrates that provide the hardest surface for resistance to scratching and high temperature applications. Our glass products are offered as a single sheet or as a fully laminated window, which closely match the properties of safety glass. There are various design options, such as a single layer, a full laminate or a step design depending on the customer's design requirement. Surface Finish Option: Anti-reflective and Anti-glare Design Options: Screen Printing, Heat Shielding, Privacy Filters and Other Specific Applications Available Typical Applications: Military, Aerospace, Medical, Industrial, Display Protection and Test Instrumentation Information provided by Chomerics
