

Solvay AG-RHOâ„¢ GPA Surfactant

Category : Fluid

Material Notes:

Description: Ag-RHO GPA is a surfactant for pesticide formulations. It is a bioactivator that can be used to replace alky polyglucosides (APG's) in aqueous formulations, tank mix adjuvants, and liquid fertilizers. It has also found use as a compatibility agent in pest. **Identification:** PROPRIETARY SURFACTANT FOR AGROCHEMICALS **Solubility:** Water **Available in:** Asia Pacific, Europe, Latin America and North America **Applications:** AG-RHOâ„¢ GPA is a wetting agent and bioactivator for agriculture. It is commonly used as a built in surfactant for pesticide formulations and also in adjuvant formulations. Electrolyte tolerance and excellent water solubility make Ag-RHO GPA particularly useful for aqueous formulations and liquid fertilizer adjuvants. Information provided by Rhodia, Rhodia has been acquired by Solvay.
