

Solvay RHODOLINE® 697 Surfactant

Category : Fluid

Material Notes:

Description: Highly efficient mineral oil based defoamers for flat to gloss paints, quick process foam knock down and high in-can persistency. Identification: OIL BASE DEFOAMER Available in: North America Applications: RHODOLINE® 697 is a defoamer especially formulated to give outstanding foam control when used in the manufacture of paints and coatings. In paint formulations, 2- 6 pounds of RHODOLINE® 697 will effectively defoam 100 gallons of paint, providing prolonged protection. RHODOLINE® 697 is not water-dispersible and should be used as received. For easy handling, RHODOLINE® 697 should be stored at temperatures above 50°F, but not above 100°F. Information provided by Rhodia, Rhodia has been acquired by Solvay.
