

Zeon Chemicals HyTemp® NPC-25 Polyacrylate Curative

Category : Polymer , Thermoset , Rubber or Thermoset Elastomer (TSE)

Material Notes:

HyTemp NPC-25 is a 25% active dispersion of a proprietary quaternary ammonium salt in an acrylic elastomer binder. This 25% active dispersion exhibits fast incorporation during the mixing process. This product provides extremely fast cure, excellent shelf stability and scorch safety to 100°C. The dispersion is in the form of dark blue pellets dusted with clay and free from foreign material. Non-post cure agent used with HyTemp 4050 and 4060 series. (25% active)
